Let Us Sell Something. Why Can't We Do It?

Just because we did not know that by using Times-Dispatch Want Ads. we could reach all the people in Virginia that may want articles that are useless to us and may be just the thing others may want. Never think an article, no matter how worthless to you, is not needed by some one else. All you have to do is to risk 10 cts. or more at the rate of one cent a word, describing what you have, to see if this is not true logic.

M. T. E. SWAIN, Agent. gress, is carried out, has returned from a Western tour of inspection, which included a visit to packing-houses in Chicago, Milwaukee, Deniver and Kansaus City. He says everywhere there is apparent the beneficial effects of the execution of the law, and a manifest desire on the part of packers to comply with its provisions. In some places new structures have replaced old ones, and in others extensive improvements to the plants already established have been made, so as to bring them up to the standard required by the meat inspection act for the health and comfort of the packers there were some cases it which packers have proceeded rather grudgingly in making the necessary improvements, due to the outlay of money required.
